

Grand Western Archery Society Coach Training Grants Policy

Introduction

Currently the Grand Western Archery Society (GWAS) is responsible for the organisation and management of all "Archery GB" coach training courses within the region. Although all courses will be run on a non-profit break even basis, candidates will incur some out of pocket expenses.

If the need for a training course has been approved and authorised by the Grand Western Council. GWAS members, who have been nominated and financially supported by their club and county association, can seek a grant from GWAS towards their remaining out of pocket expenses.

Policy

The GWAS will provide grants towards their members "out of pocket expenses" incurred on them successfully passing a GWAS approved coach training course.

Criteria

To be eligible to receive a GWAS coach training grant the archer must have met the following criteria;

1. The archer has received the approval from their club and county association to attend the course.
2. The GWAS council has approved the course, and its management staff and costs.
3. The archer has submitted a completed application form declaring all the funding they have received towards the training costs, and itemising all their out of pocket expenses.
